This book is written for anyone who has ever wondered what the Bible really teaches about Mary, the mother of Jesus. We will be looking into passages of the Old and New Testament which re-enforces our belief and will give you a solid ground to teach or defend false accusations from other people/religions.

We begin with Mary the New Eve and find out whatever happened to the Ark of the Covenant. We will delve into Mary, Queen of Heaven and visit passages in the Bible that support that we do not worship Mary, we honor her and show why other faiths misinterprets our belief and say we worship her. Additionally we will look into the perpetual virginity of Jesus and Mary.

This book will certainly confirm our belief in what our religion teaches us and to be instrumental in teaching others.
